From the S. Western Sentinel.

I remember when a school boy creeping down stairs one night, after my companions were asleep, to spend an hour with my master's daugh ter in a private setting room. Before I had been with her ten minutes, her mother's footsteps were heard so suddenly in the passage, that it was impossible for me to retire without being tabillity of Democratic principles when entered lay too far for me to hope that I could reach it before the lady would open that which stood opposite. The act was so delicately timed, that the old woman saw her using the snuffers, but Mary so hemmed in the light with their hollow part, that her mother never detected my trembling person, crouched as I was behind my young love's to great excitement last week in consechair. During the bustle attendant on the illu- quence of a bold and daring attempt on I crawled towards the door and escaped-

THE NEXT CONGRESS.

One hundred and forty members have been chosen for the next Congress-83 of whom are federalists; and 57 democrats. One hundred and two are yet to be selected, making th total 242. The present House of Representatives comprises 124 democrats and 118 federalists. The following States have elected mean bers to the next Congress,-Louisrana, Missourt, Vermont, Maine, Georgia, Ponnsylvania, New York, Ohio, N. Jersey, Deleware, Michigan, Massachusetts, Arkansas, and South Carolina. The following are yet to elect, viz: N, Hampshire, Rhode Island, Connecticut, Maryland, Virginia, North Carolina, Alabama, Mississipi, Tonnessee, Kentucky, Indiana, and Itlinois. Several of these do not held their Congressional elections until August, it will therefore be impossible for Mr. Harrison and his party to call a special session of Congress unless the legislatures of the several States anticipate the usual time of holding their elections, by the passage of a law at the ensuing sessions of their legislatures for that purpose .- N. The approaching session of the Ohio Legisla ture, will be one of more than usual interest to all parties. The Corwin administration will be m progress-his inaugural will have developed ins measures, or rather the measures of the Barkers and Abolitionists that elected him, and it

whose hands he is.

When these measure are presented to the Leg islature by Governor Corwin, as it is his duty by the constitution, the tug of of war will com-mence in the Legislature; and, for the first time for years, the people will have an opportunity of seeing what the principles of whiggery real ly are in practice, and a fair comparison can be made between the doctrines of the two parties, touching the great interests of equal rights and onstitutional government.

We shall have good reporters, and use what, industry we are capable of employing on our paper, to give a correct and extensive view of all their doings: and the first curious item will be a law reducing the salaries of all the officers in the State, as promised to the people. The next will be, to raise the wages of labor; increase the price of wheat and pork; introduce the ne-AMUEL FERTIG.—GROCER witnesses, and into our common schools; but not into our Colleges where Bankers' children congregate. All these hard cider and coon skin movements will be recorded with care and pregroes fresh from Kentucky into our courts as cision, and when necessary, made into first rate Tippecanoe songs, and sung to keep the mem-

bere' spirits up.

And the scheme already on foot, as we are in formed, to chain down the people by a great Bank machinery, more powerful than the threne of the Russian Autocrat, will be watched with due care. Let the people read and judge for themselves.

The proceedings of Congress will also be du ly given as heretofore.
